WHY **Checkpoint** ?

As the inventors of the original wheel nut indicator and with over 30 years' experience, Checkpoint can help find solutions to a range of wheel security problems your fleet may be facing. We are happy to provide you with all the information you need to make an informed decision on how best to manage your wheel safety.

Made in the UK and refined over 30 years, our product range is the largest on the market and is continually expanding to suit your needs. We have many products which provide indication and/or retention as well as tools to be used in the workshop to improve wheel safety. We offer our products in a range of sizes and colours to suit your fleet and as wheel security is all we do you can be assured that when you speak to Checkpoint you are

speaking to the experts.
